\$7,299*
per person
double occupancy

Calling on all LGB Fans! MacLean Adventures and trip partner TRAINLI have created the most amazing tour of Switzerland for September 2018, where you'll ride the authentic prototypes of the LGB trains. If you love trains, you'll love this Adventure! Some of the most fascinating train rides in the world are all in Switzerland. No wonder that LGB captured the this enthusiasm with their models, and that's why our program let's you experience the amazing views along the various trips. Experience riding on the famous Glacier Express – the "slowest express train in the world" passing through 91 tunnels and over 291 bridges. The journey between St. Moritz and Zermatt allows incredible views passing through some of the Rhaetian Railway in the Albula / Bernina Landscapes – a UNESCO World Heritage Site. We will ride the famous Chocolate Train on the Montreux-Oberland-Bernois Railway (MOB), a first-class only journey that includes either a historic vintage Pullman "Belle Epoque" car or a Panorama car with large windows to enjoy the amazing scenery. We'll also travel by cog train through the Eiger and Monch to the highest railway station in Europe – Jungfrauoch. Swiss engineering is truly incredible!

***Every TRAINLI customer that goes on this trip will receive a \$300 gift certificate for TRAINLI**
